What is already in process...

✦ Modifications to the subcontracts

- *Thanks to Katrina Christian, the administrative “pre-sets” have been done, which allow us to process CWO extensions beyond 9-28-03.*
- *The active CWO ‘s are being modified to extend contractor personnel who have Go Forward or New Start project/task numbers.*

✦ Re-authorizing Overtime

- *Along with the extensions, we are asking the sections to re-authorize the overtime hours their contractor personnel are expected to work.*

Your Concerns

Again, using the vernacular of Stay Behind, Go Forward & New Start:

- ✱ If you have contract personnel working under a project/task number that will end on 9-28-03 (a **Stay Behind** number), that contract personnel should be instructed NOT to show up for work after Sunday 9-28-03. They will be "turned off".
- ✱ If you have contract personnel working under project/task numbers that continue beyond 9-28-03 (**Go Forward** or **New Start**), they may report for work on Monday 9-29-03 or according to the period of performance authorized on their CWO.

Your Concerns cont...

Overall, any contractor personnel that does not have a valid project/task number in CWAWA (on or by 9/29) for their assignment can't work.
